

Jump Start Your Electrical Career

Jump Start Your Electrical Career with IEC Pennsylvania! This new, informative program, will teach you everything you need to know about becoming an electrician.

In this free, four week , information-packed class which meets twice a week, you can expect to learn about:

- * Jobsite Orientation and Intro to the Trade
- * Material Identification
- * Hand and Power Tool Identification
- * Device Identification
- * Wire Prep, Identification and Installation
- * Safety and PPE
- * Electrical Safety
- * Tool Safety

Classes are every Tuesday and Thursday from 6:00 – 8:00 pm and start October 24th....Sign up today using the email below! Space is limited.

This course is all ages, but is a great introduction if considering apprenticeship as a career pathway.
