Central PA Talent and Innovation Defense Ecosystem (T.I.D.E.)

A US Defense Manufacturing Community

Lead Applicant: Manufacturers' Association
Project Funding: \$6,137,445: 5-year term (2028)
\$4,908,960 federal
\$542,135 DCED match
\$686,350 other match

Designated Defense Mfg Community:
US DoD designation to support long-term community investments that strengthen national security innovation and expand the capabilities of the defense manufacturing industrial ecosystem.

U.S. Department of Defense
Office of Local Defense
Community Cooperation

- Partners:**
- 7 Career and Tech Centers (CTC), 2 tech colleges
 - Advanced Robotics Manufacturing Innovation Institute
 - 2 Workforce Development Boards
 - Underserved Populations: York County Economic Alliance
 - 2 Industrial Resource Centers (federal NIST MEPs): MANTEC & Innovative Manufacturers' Center
 - 2 career education intermediaries: York County Alliance for Learning & Partnership for Career Dev.
 - Defense Industrial Base Employers
 - Gov't: PA DCED, US DoD
 - Local Defense Partners: Cumberland, Franklin, and Lebanon Counties

Executive Summary: The *Central PA Talent and Innovation Defense Ecosystem (TIDE)* initiative will deliver a vibrant, highly skilled defense industrial base workforce that is vital to strengthening our national security and US industrial competitiveness. The project will stand up a sustained defense focused workforce and training ecosystem that stretches across the region. TIDE will scale the capacity and capabilities of the existing education and training system to deliver critical defense specific skills in the key occupations of machinists, skilled welders, and mechatronics technicians. To support the ecosystem, resources will also be used to remove barriers for small manufacturers to assess and deploy automation technology; connect defense career pathways for youth and underserved adults; and raise the profile of career opportunities in the defense industrial base in community.

The Manufacturers' Association is the lead applicant and program manager for the proposal. The defense community consortia will build upon the sectoral strategy that has been operating and supporting manufacturing in the region for the last 20 years – the *Advanced Manufacturing Regional Industry Partnership* funded in part by the PA Department of Labor and facilitated by the Manufacturers' Association.

Train Defense Specific Skills: scale the training ecosystem of the career & tech ed high schools & technical colleges

Future Workforce: Provide high school students career education, exploration and awareness to build the pipeline of future skilled workers

Attract Underserved Populations: Ensure underserved populations are recruited, provided access to the training and are connected to supportive services to participate in the training

Technology Deployment: support for manufacturers to assess and adopt opportunities for automation to address production barriers

Outreach, Marketing, Recruitment: Resources to support the project promotion and engagement of the community

RESULTS:

- ✓ **420 New Skilled Workers**
- ✓ **Building new talent pipelines & awareness**
- ✓ **Increasing tech deployment and automation**
- ✓ **A Sustained Regional Training Network**

For more information on these career advancing opportunities, or opportunities to connect with employers, feel free to contact the team at the York County Economic Alliance.
